

THE TEXT

(1) Earth Day is on April 22 every year. Earth Day is a day to remember to take care of our planet, Earth. We can take care of our planet by keeping it clean.

(2) We can keep Earth clean by following the rule of “**reduce, reuse, recycle**”. **REDUCE** means use less. We can reduce our use of resources like water or petrol. **REUSE** means use again, rather than throw things away. We can reuse many things, such as bottles, plastic bags and boxes. **RECYCLE** means to make something new from something old. We can keep Earth clean by recycling materials such as aluminum, paper and plastic. If we take these materials to a recycling center, we can use them again in a different way.

(3) On Earth Day, we remind ourselves and every one on Earth that we must do these things every day, not just on Earth Day. We must all do our part, and we can make a difference. On April 22, remind everyone you know that Earth Day is every day.

I. Reading comprehension: (6 marks)

1-Tick the correct answer: (1 mark)

The text is about: saving water Protecting the planet Polluting the air

2- How often is Earth Day celebrated (par1)? (1 mark)
